

HYDRANT AND MAIN FLUSHING

Evansville Water and Light will be flushing water mains starting Monday, June 5th through Wednesday, June 15th 2023. To maintain water quality and keep pipes clean, we run pressurized water through water mains in a process known as “Flushing.” You may experience some brown/discolored water when we flush the mains in your neighborhood. During the flushing in your area, try to keep your water turned off between **7:00am to 3:30pm**. Avoid running hot water to keep sediment out of your hot water tank. You may experience reduced water pressure. After flushing, if there is discoloration in your water, open your front hose bib or the lowest cold water faucet in your home until the water runs clear. If you have any questions please call Evansville Water & Light at 608-882-2266.
