

## **Spring hydrant and main flushing schedule 2026**

Spring Hydrant Flushing begins in the city of Evansville on Monday, June 1st and continues through Friday, June 26th. Crews will be flushing from 10am-3pm on scheduled days. Hydrant flushing helps maintain our water system by clearing sediment from water mains, checking that hydrants and valves are working properly, and ensuring the system is ready for firefighting. If you see crews flushing hydrants on your street, please avoid running water, doing laundry, or using the dishwasher until flushing is complete. Sediment can be stirred up during the process and may cause temporary discoloration in the water. If your water appears discolored, there is no health hazard. Simply run cold water from a tap for a few minutes until it clears. The discoloration typically dissipates within a few hours. If you have any questions, please call Evansville Water & Light at 608-882-2266.

**Please drive carefully around crews and treat them like any other road or construction workers.**
